Bojong Gede, Bogor, West Java, Indonesia

SUMMARY

Junior Full-Stack Developer with hands-on experience contributing to 5+ real-world software projects, including healthcare management systems, data warehouse platforms, asset management solutions, and RESTful API services. Proficient in Next.js, Golang, Laravel, PHP, and MySQL, with experience developing scalable web applications, implementing secure authentication systems, and designing database solutions. Passionate about building impactful software, solving complex problems, and continuously learning modern technologies to deliver high-quality digital products.

WORK EXPERIENCE

Junior Web Developer, PT. Ciptadra Softindo

April 2026 - Present

- Developed responsive healthcare management modules, including Medical Equipment Management, Healthcare Workforce Management, and Posyandu Information System.
- Designed and maintained **20+ RESTful API endpoints** supporting frontend-backend communication and system integration.
- Contributed to the development of healthcare management applications using Next.js, Golang, and MySQL.

Full-Stack Web Developer Intern, PT. Ciptadra Softindo

June 2025 - Oct 2025

- Collaborated with a development team to design and build an Asset Management System using Next.js, Golang, Laravel, and MySQL.
- Analyzed, developed, and validated Data Warehouse solutions for DataWarehouse Depok Forecast to support business reporting and data-driven decision-making.
- Developed backend services and 20+ RESTful APIs using Golang, implementing JWT-based authentication and authorization to secure application access.
- Led a development team in designing and implementing user interface screens for the Ciptalife Hospital Management System, including Radiology, Ophthalmology (Eye Clinic), ENT (Ear, Nose, and Throat), and other healthcare service modules.

EDUCATION

Software Engineering

July 2023 - May 2026

Wirabuana Vocational High School

- Specialization in Software Engineering with a focus on Web Development
- Relevant Coursework: Web Development, Database Systems, Software Engineering

TECHNICAL SKILLS

Programming Languages: TypeScript, PHP, Golang, JavaScript

Frontend Development: [Next.js](#), [React.js](#), Bootstrap, Tailwind CSS

Backend Development: Golang Fiber, Laravel, RESTful APIs, JWT Auth

Database & Data Engineering: MySQL, Database Design, Data Warehousing

Tools & Platforms: Git, GitHub, GitLab, Docker, Postman, Linux, VSCode
